

Autodiagnos™ Pro

Automotive Diagnostic System

Scan, Diagnose, and Repair Vehicles Faster with Autodiagnos™ Pro

For professional technicians who need to diagnose and repair vehicles quickly and accurately, Autodiagnos™ Pro uses some of the most advanced and versatile technology available to quickly diagnose today's sophisticated vehicles.

More than just a diagnostic tool, Autodiagnos™ Pro is a resource that is updated as vehicles evolve. Designed by engineers who develop assembly line testing tools and diagnostic systems for OEMs, Autodiagnos™ Pro is engineered, supported, and its key hardware built in the USA.

Autodiagnos™ Pro
Unique functions for unmatched Technician Productivity
P/N: 2910002330700

Innovative Technology, Maximum Value

Backed by Continental, celebrating 150 years as an automotive and mobility technology leader, the Autodiagnos™ Pro is engineered to help you maximize your shop's profitability and accuracy.

Because Autodiagnos™ Pro can run on any compliant Windows tablet or laptop, there's no large investment in a proprietary, bulky, stand-alone device to get started. Autodiagnos™ Pro comes with a VCI and software including updates for two years.

You can add to your shop's arsenal by opting for the deluxe kit which includes a powerful 8GB Microsoft Surface Go tablet, pre-loaded with the required software, and matching protective case with a built-in adjustable hand grip.

Powerful 8GB Microsoft Surface Go Tablet with protective case. Deluxe Kit includes: Tablet pre-loaded with Autodiagnos™ Pro Software. P/N: 2910002401800

Autodiagnos™ Pro

Analyze, Diagnose, and Repair Faster

Features and Benefits

FREE
2 Years of
Updates*

Fast & Easy to Use

- › New *Service Drive Triage* feature provides a clear, comprehensive picture of vehicle health, not just DTCs, but also fuel trim and emissions inspection readiness status.
- › DTCs reported in 20-30 seconds on average, full vehicle scans in under one minute.
- › Fast, accurate data in list, graph, and gauge formats, highly customizable.
- › Decodes VIN in seconds.
- › Initial purchase includes two years of updates.
*Valid only on purchases before June 1, 2022

Versatile & Efficient

- › History is collected during every scan, automatically, saving time and effort.
- › Access to vehicle service and repair information such as that provided by Identifix, Mitchell 1, ALLDATA, and others, right from the scan tool, while performing diagnostics.
- › New GM RPO Code feature links directly to GM's AC-Delco database to help you confirm vehicle equipment (GM vehicles only).
- › Link to online resources to research DTCs and vehicle conditions.

Technician and Shop Friendly

- › Super-fast, clear, and sharp user interface.
- › Get started in minutes with just your VCI, registration, software update, and tablet or laptop.
- › LEDs confirm connection and VCI communications.
- › Audible alarm reminds technicians to disconnect the VCI.
- › Snapshot replay - automated data recording allows for seamless data review, export, and import.
- › Vehicle Communication Interface (VCI) allows OE diagnostic applications to be run.
- › User-customizable data display.

Enhanced Vehicle Coverage including Millions of Late-Model European Vehicles

- › Software and feature updates will keep your Autodiagnos™ Pro up-to-date for years to come, providing new features.
- › Go to www.autodiagnos.com for the most up-to-date list of supported vehicles.

Technical Specifications

Vehicle Communications Interface (VCI)

- › **Certification:** Meets SAE J1962
- › **Operating Voltage:** 4 - 30 Volts DC
- › **Power Consumption:** (Operating) ~100 mA @ 12 Volts DC
- › **Operational Temperature Range:** -40 to 140 F (-40° - 60° C)
- › **Dimensions:** (HxWxD) 4.6 x 2.0 x 1.1 in (116 x 50 x 27 mm)
- › **Weight (net):** 0.1 lb. (450 g)
- › **Warranty:** 1 Year
- › **External Connectors:** OBD II - male connector (built-in, user replaceable) and micro USB
- › **PC connection:** USB2.0 full speed
- › **Bluetooth:** 3.0 Class 1 (100m/325 ft. range)
- › **Audible Alert:** +90dB beeper
- › **FCC Codes ID:** X3ZBTMOD3 IC: 88228A-MOD3
- › **LED Status Indicator:** Power on, Device communication, Fail/Error

Scan Tool Protocols

- › HS CAN: ISO14229, ISO 15765 full multi-frame message support
- › KWP2000 ISO 14230 / 9141-2 K Line
- › J1850 VPW / PWM (GM Class2 / Ford SCP, Chrysler J1850)
- › Chrysler SCI
- › Single Wire CAN
- › Ford BP
- › Honda Diag-H
- › Volkswagen TP 2.0

Software Minimum Requirements

- › Windows 8 or 10
- › ~355MB Hard Drive space (installed)

Microsoft Surface Go Tablet Specifications / Features

*P/N 2910002401800 only

- › Windows 10 Professional
- › Intel Pentium 4415Y 1.6 GHz
- › 8 GB LPDDR3 (1866 MHz)
- › 128 GB - eMMC SSD
- › 10" touchscreen 1800 x 1200 (Gorilla glass 3, PixelSense, 217 ppi)
- › Intel HD Graphics 615
- › Integrated 1080p Web Cam | 8 Megapixel (rear) - 5 Megapixel (front)
- › 802.11ac Wireless LAN | Bluetooth 4.1
- › 2W stereo speakers with Dolby Audio Premium
- › Up to 9 Hours Battery Life
- › Trusted Platform Module (TPM 2.0) Security Chip
- › Silver (Magnesium Alloy)
- › Connectivity: 1 ea. USB-C 3.1 | Surface Connect | 3.5 mm headphone output | Dock | microSDXC
- › 24 Watt power supply
- › 9.7 x 6.9 x 0.3 in
- › 18.41oz (1.15 lbs.)
